At New York, Saturday, money on call was 11/22 per cent.

Prime mercantile paper, 31/2/41/2 per cent. Sterling exchange was steady, with actual business in bankers' bills at \$4.8764.87% for demand and \$4.84@4.84% for sixty days; posted rates, \$4.84\\04.85 and \$4.87\\04.88; commercial bills, \$4.83.

Imports of dry-goods and general merchandise at this port this week were \$9,766,-922. The imports of specie for the week were \$163,346, of which \$132,066 were gold. The exports of specie from this port for the week aggregate \$626,624, of which \$40,480 were gold.

The New York weekly bank statement shows the following changes: Reserve, increase......\$10,704,500 Specie, increase..... Legal tenders, increase...... 14,467,100

Circulation, decrease...... 692,300 The banks now hold \$43,991,450 in excess of the requirement of the 25 per cent, rule. The New York Financier says: "The statement issued by the clearing-house banks of New York city for the week ending Jan. 5 is a more effective argument in favor of an immediate low-money market than columns of theoretical discusion. The

enormous increase in deposits and in cash holdings has been equaled only once, and that was for the week ending Nov. 14, succeeding election. These exceptional gains, it is needless to say, were the results of the January dividend payments, the continued flow of money to this center and the large increase in savings deposits. As there is no outlet for this money, the usual winter gold exports having been postponed, the total cash gain appears much larger than during any previous year. The expansion of deposits, unaccompanied by an increase in loans, as is usually the case, also shows clearly the source of the accumulation, and the result of the week's operation has been to increase by \$10,704,500 the idle cash in the New York banks, bringing the total excess reserve up to \$13,591,-450, which is larger than for two years past. It is only logical, therefore, to look | \$67,371. for a continued low money market and higher rates for foreign exchange, the con- \$1.463,013. ditions favoring both circumstances. It was from almost similar cause that the large sterling loans were made in this market recently, and if money rates abroad

go higher, as appears probable, some interesting developments may be expected to The large gains reported for the current week were foreshadowed in this analysis not long ago, but the very great increases have surpassed all expectations, and it becomes interesting, therefore, to watch how the banks will endeavor to employ some of their surplus funds and whether Enrope will not endeavor to benefit through the opportunity presented." Total sales of stocks Saturday were only 9,691 shares, including American Sugar,

7.800; St. Paul. 4.400.

The New York stock market Saturday was dull, and, so far as the usually prominent stocks were concerned, the fluctuations were narrow, with a tendency toward a lower level. The course of prices was influenced by profit taking. In the usually inactive specialties some noteworthy fluctuations ocured in specific cases. In addition to the realizing the market was affected by selling for arbitrage account, and the bear contingent, as usual in a dull market, sought to force liquidation for effect on the general list. The reaction was most marked in Sugar, Delaware & Hudson and Consolidated Gas. Leather preferred rose 1 per cent., to 60, on reports of an improved statistical position of the leather industry. Illinois Steel was unusually active and weak, the traders detecting the . stock declined 5% per cent., to 32. The depression in the iron and steel trade was considered responsible for the selling. Wheeling & Lake Erie preferred was erratic. with a decided downward trend. After a slight fractional advance, a break of 2% per cent. occurred, due to apprehension of loss in business on account of the alleged severe cuts in soft coal rates by the Baltimore & Ohio. The general market was sustained momentarily after the publication of a very favorable bank statement, show-

704,500. Toward the close renewed pressure prices to the lowest points. The market left off heavy at slight net losses. THE WEEK ON CHANGE. and professional, and the movement of prices irregular. At the outset the specby more favorable railroad earnings, and the decided strength of the heat market. The last consideration brought the granger stocks into favor. The exceptionally large accumulations of funds at this center resulted in an improved inquiry for and decided strength in railway and miscellaneous 'securities for investment. The most important development of the week was the action of the directors of the Delaware & Hudson Canal Company, with their meeting on Wednesday, in reducing the rate of dividend for the year 1896 from 7 to 5 per cent. The company has been justly considered the banner earning coal property, and the prominence of many of its directors in the world of finance caused exceptional interest in the dividend reduction. The unfaverable conditions in the anthracite trade have been matters of current gossip for many months past, but hardly any one had anticipated that the Delaware & Hudson would show only 5 per cent. carned on the stock, or that the directors would have the moral courage to reduce the dividend to that figure. Criticism of the policy adopted has been universally favorable, as contrasting with the methods in the cases of many leading railway and other prop-

erties which wrought financial ruin to the security holders. The stock moved widely. After a rise of 4% per cent, to 121% the price dropped to 111 on the dividend action; the stock left off 6 per cent, net lower The gas stocks fluctuated widely, and were influenced by the tenor of advices from Albany on various gas measures, Gossip as to dividend chances of some of the low-priced stock, including the Chesapeake & Ohio, was reflected in prices, Long Island improved decidedly, and shows an exceptional gain of 8 per cent. on the news of the formation of a syndicate to protect the Corbin holdings and develop the resources and facilities of the company Consolidated Gas rose 8%, to 145%, declined to and closed at 140. The market started out weak, but a firm undertone prevailed as a rule in spite of realizations and comparative prices, generally speaking, show improvement. The fluctuations in foreign exchange excited some comment, owing to the strength exhibited, due to an increased demand for account of large commercial in- tile, Fr., 12@16c; soda, bicarb, 442@6c; salts, Epterests, which eventually forced out hoarded exchanges. Transfers, 2; consideration..... The Law of the Road.

To the Editor of the Indianapolis Journal: Canada, like Great Britain-

The rule of the road is a paradox quite: When riding or driving along. If you go to the left you are sure to go

But if you go right you go wrong. The fact that the law of the road in the Canadian side of the border. I was Canadian road near the boundary, when to allow the other vehicle plenty of room to pass. The other vehicle, as it turned out, was driven by an American who did not know that in Canada you kept to the left, so he followed the American practice 14c; turpentine, 20635c; glycerine, 196922c; jodide of keeping to the right and so put himself in just the proper position for a collision with my vehicle. Owing to the darkness of the night we did not see that a collision was impending until we were so near that there was little time to avert it. My vebruises I received were attended to by my friend, the physician. The incident was a practical lesson on the law of the road. both to myself and the American. Luckily for him, his carriage was not overturned He was legally responsible for the accident, because it happened in Canada; if it had occurred a few miles further, on the American side, I would have been responsible. Along the border people of both countries are generally well acquainted with the laws of the road, and they cross to the other side of the road when they cross the line. SCOTUS ERIGENA.

Dry Goods. FALL RIVER, Jan. 9.-Manufacturers are confronted with a discouraging situation, there being practically no demand for print cloths during the past week. The sales of regular goods have been made. Of odd goods the total transactions were relatively small, and these at a basis of 21/2c, at which price manufacturers say there is no profit There is as yet no concerted plan for reducing the output. It is true that the executive committee of the manufacturers' association has held two informal conferences, at which the situation has been thoroughly discussed and propositions looking to a remedy have been considered, including that of a complete shutdown as well as operations on a four days per week schedule. The single result of these meetings, which is of importance, is the determination on the part of some manufacturers to try again a plan that has been tried once before. At certain mills sample bales of cloth are being prepared for shipment to the Man chester (England) market. The prices at which the goods can be quoted is relied upon to attract the foreign trade, and if a sale of any considerable amount of goods can be effected, immediate shipment will be made. The advantage in unloading the surplus into a foreign market is apparent in an industry which relies upon the home market for its staple trade. That something must be done the manufacturers are agreed. For the present, however, the mills will run full time.

About sixty men were present, representing the States of Illinois, Michigan, Wisconsin, Iowa, Nebraska, Missouri, Minnesota, Kentucky and California. Franklin McVeagh called the meeting tovorder and named General S. B. Buckner, of Kentucky, as chairman. General Buckner, in taking the chair, said the meeting was called for the purpose of conferring with reference to the future course of the Na-tional Democratic party, which was the only Democratic party in existence. Speeches were made by men from every State represented showing that the party was everywhere in good condition. A motion urging the members of the party to perfect their organizations throughout the country was presented and adopted.

Outrage on Japanese. SACRAMENTO, Cal., Jan. 9.-A crusade against coolie labor has been inaugurated at Orangevale, a citrus colony in the southeastern part of this county. C. G. Roos, an orchardist, employed six Japanese on his place, and last night fifteen citizens with gunny sacks over their heads seized the Japanese, placed a rope around the neck of each and took them to a big oak tree. There they were strung up and left hanging until life was almost extinct. The Japanese were then lowered, and when they revived the hanging process was repeated several times. The Japanese were then forced to march out of the settlement and warned never to return on penalty of being hanged until dead. Roos the employer, remonstrated at the outrage, and then rope was thrown about his neck with a threat to hang him if he interfered or em-

ployed any but white labor on his ranch Ambushed by Texans.

KEY WEST, Fla., Jan. 9.-News was re ceived here to-day from the Pinar del Rio country to the effect that the "Lone Star" Company of Texas rangers in the Cuban army had again distinguished themselves. From the reports it appears that they defeated a much larger force than themselves, capturing the Spanish captain and taking a provision train that the Spanish detachment was guarding. The battle took place last week, probably on Friday, judging by the date of the letter received, near Paicine, south of San Christobal. A detachment of three hundred Spanish cavalry was escorting a trainload of provisions along this route, when the Texans, who only numbered 160 men, ambushed both sides of the road. Tents, arms, ammunition and provisions were captured. The Spanlards left five dead and forty wounded on the

field, while the Cubans had five killed and fourteen wounded. Two Killed and Two Hurt.

FORT WORTH, Tex., Jan. 9.-At o'clock this afternoon a head-end collision between two freight trains occurred on the Gulf, Colorado & Santa Fe Railway at Hazlet, fifteen miles north of here. One train was standing on the main line waiting for the other to take the siding. The engineer of the south-bound train, presuming the switch had been thrown, came ahead at a lively clip and crashed into the northbound engine. Two men were killed and two injured. The killed are: Joe Haggerty, of Gainesville, Tex., engineer of the south bound train, and E. W. Palishall, brake man. The injured are: George Coombs. of Gainesville, Tex., engineer, arm broken, and a man named Morris, internally injured, but not known how serious. The dead and injured were taken to Gainesville.

Senator Hansbrough Renominated. BISMARCK, N. D., Jan. 9 .- At the Republican caucus to-night Senator Hansbrough was chosen as the Republican nominee for senator to succeed himself, thus assuring his re-election when the vote is taken on the 19th inst. This result has been conceded for several days, all opposition having been practically withdrawn and the nomination being made unanimous to-night. The vote was: Hansbrough, 38; Francis, 15; scattering, 3,

For Want of Food.

ALTOONA, Pa., Jan. 9.-Mrs. Oscar Adams was found to-day, starved to death, in an upper room of a Fourth-street tenement house. Her husband was found by her side, half crazed and in a critical condition for want of food. The coroner says he will make a thorough investigation of the case. The Board of Health reports sixty-five families (three hundred people) utterly destitute.

A Plea for Old Soldlers, To the Editor of the Indianapolis Journal:

I notice in some communities that where there are applicants for postoffices and other appointments to be made, and the applicant to be recommended by the precinct committeeman that the soldlers, even if they are worthy and have the qualifications, are almost entirely ignored, and young men are the beneficiaries. Precinct committeemen who were not soldiers certainly do not stop to consider the hardships of one who carried a musket from 1861 to 1865. But some will say the soldiers are getting a pension, and that is enough. It is almost universally said by old soldlers that it matters not how much they are drawing from the government that no sum of money, let it be ever so much, can ever reimburse them for their services to their country. It is a shame for men who were yet unborn during the rebellion to be favored with any government position. be it small or great, instead of old soldiers. It will be time for them when the old soldiers have been provided for-who are disabled by exposure, long marches, prison life, sunstrokes, etc., while serving the country for the small sum of \$13 per month, and thus rendering them unable to take care of what little property they have got, with their pensions, which is begrudged by thousands who do not appreciate the blessings they are enjoying to-day of a free country that was made so by the brave boys who endured untold suffering and hardships. It is the intention of President-elect McKinley to see that all of his comrades who are wor-The apportionment of the school fund of thy and capable are provided for aftthe State has been made to the ninety-two | er the 4th of next March. To the Editor of the Indianapolis Journal: I notice with approval your editorial favoring repeal of the Metropolitan Police law. It should be done by all means by this Legislature. Governor Mount, from correspondence I have had with him on the subtorium to-day declared for continued oppo- | ject, favors repeal, and I believe will urge sition to the tenets of the free-silver wing | it in his inaugural address. In 1890, when the city government had charge of fect their State and local organizations | the police department, it cost, that year, with the purpose of placing State and local | \$6,379.50. Last year and the year previous it cost, under the Metropolitan management, nearly \$12,000 each year. The service is not more efficient now than in 1890 and, besides, that was a year of business. Every mill and factory in the city was running full time and the turbulent element requirng police vigilance was more numerous than now. Floyd county would not have a Republican representative in the Legislature if the people of New Albany had not wanted this law changed. The four senaters who absented themselves two years ago, when the vote to pass the amended law over the Governor's veto failed, should be remembered. The people of New Albany want relief and believe themselves capable of managing their local affairs. I hope the Journal will continue to urge the repeal of

T. W. ARMSTRONG.

Chicago News. Only one man was ever twice elected Governor of a State by a single vote. In 1839 Marcus Morton was elected Governor of Massachusetts by one plurality and in 1843 was also elected by the Legislature by a single vote. He was a candidate twelve vears in succession before his first election. After that election, in 1840, he ran again and was swamped by John Davis, who rode into office on the crest of the William Henry Harrison wave. In that year the Whigs woke the echoes with a campaign soung which ran this way, to the tune of "Yankee
